PROFILE

Extremely motivated, highly successful *Planning / Operations Professional* with ten years of proven experience managing cross-functional operations environments in North America and the Pacific Rim. Well versed in all stages of a Product's Life, from New Product Introduction through Supply Chain Design and Analysis to End of Product Life Cycles. Extraordinary Team Leadership capabilities, highly analytical, with outstanding communication skills; interacts easily with all personality types. MBA in Global Management plus a Bachelor's degree in Manufacturing Management. Proficient in SAP, Oracle, MS Word, Excel and PowerPoint.

KEY ACCOMPLISHMENTS

~ At Big Corporation ~

- **Increased On-Time Performance to Promised Ship Date by 52%**, leading all company regions in this metric.
- **Increased Customer On-Time Performance by 250%** by working internally to streamline and correct communications between Sandisk and Contract Manufacturers.
- **Reduced Overtime Expenditures 75%** by re-allocating build requirements to avoid OT and authorizing advance builds to capture free capacity.

~ At Bigger Corporation ~

- **Increased startup's first year production** of \$6 Million to \$80 Million by the end of the third year.
- **Reduced Supply Chain Transit Time 20%**, reducing inventory exposure and meeting customer goals.

PROFESSIONAL EXPERIENCE

BIG CORPORATION, Boston, MA

2008 - Present

Retail Fulfillment Manager

- Reduced Customer Compliance fines 75% by correcting errors in quantity, labeling and packaging before shipment.
- Increased CM's lines shipped by helping management anticipate and prepare for upside demand.
- Saved \$40,000 on the implementation of Nippon Express's Warehouse Management System by developing and maintaining good vendor relationships.
- Streamlined CM's operations by identifying redundancies that led to excess costs.
- Set Build Schedules, prepared OT budgets and Capacity Plans.
- Developed reporting tools to identify material shortages.

BIGGER CORPORATION (acquired by BIG CORPORATION, January, 2006)

2004 – 2008

Senior Supply Chain Analyst (For Bigger 2004 – 2005, For Big 2006 – 2008)

- Reduced Freight Forwarder cost 40% by enforcing our CM's compliance with shipping requirements, and negotiating cost reduction targets with JSI and Nippon Express.
- Monitored Sort, Assembly and test operations at our off-shore CM.
- Liaised with freight forwarders to ensure import and customs requirements were met in order to both import and export to China and Japan.
- Developed tools to determine material availability and capacity commitment.
- Implemented new Manufacturing Execution System and trained employees and CM's on operation.
- Primary contact on I2 implementation of Bigger products into Big's I2 System after Big's acquisition.

PROFESSIONAL EXPERIENCE (Continued)

SMITH SEMICONDUCTOR, Portland, ME 2000 - 2003

Senior Logistics Planner

- Prepared production schedule forecasts and communicated schedules and material requirements to off-shore Fab and assembly locations.
- Liaised with sales and customer base to identify potential shortages on a daily basis.
- Monitored resource allocation to determine manufacturing mix to meet sales and inventory goals.

JONES AND CO., Portland, ME 1999 - 2000

Senior Planner

- Coordinated material flow through production.
- Supervised Cell Coordinators.
- Monitored ECO impact on the Final Integration Area.

RCA CORPORATION, Brockton, MA 1998 - 1999

Master Scheduler / Planner

- Utilized SAP to define and implement production schedules.
- Reviewed capacity requirements and constraints with process engineering to determine future requirements.
- Managed Supply Chain Data to control scheduling.

POINTE, Fitchburg, MA 1995 - 1998

Materials Planner / Buyer

- Reduced obsolete inventory by negotiating with suppliers and other customers using similar products.
- Planned product inventory levels to meet demand yet stay within company goals.
- Decreased excess material 40% by developing an Excel based planning tool that interfaced with the company system. The tool also reduced the monthly planning process from two days to four hours.
